Biography

I am an artist driven by a deep quest to infuse the vibrations of healing and the essence of energy work into each of my creations. My art explores how we can feel and resonate with our connection to nature and our place in the universe. Through my work, I strive to present nature not only through human eyes but also to reveal our impact on it and to explore our search for balance and harmony.

My artistic approach emphasizes the raw presentation of emotions, whether simple or complex, aiming to interpret beauty at the crossroads of functionality and pure expression. By combining realism and abstraction, I uncover and reveal an abstract realism, where the beauty of nature and humanity blend into an accessible visual harmony.

My work also reflects liberation and serenity, sharing the depths of my solitude and the darker sides of my mind. It is an invitation to explore the fantasy of my soul and the creative isolation that fuels my artistic process. Through the contrast between tangible realism and liberating abstraction, I seek to create pieces that capture the essence of human complexity and the profound impact of our relationship with the natural world.

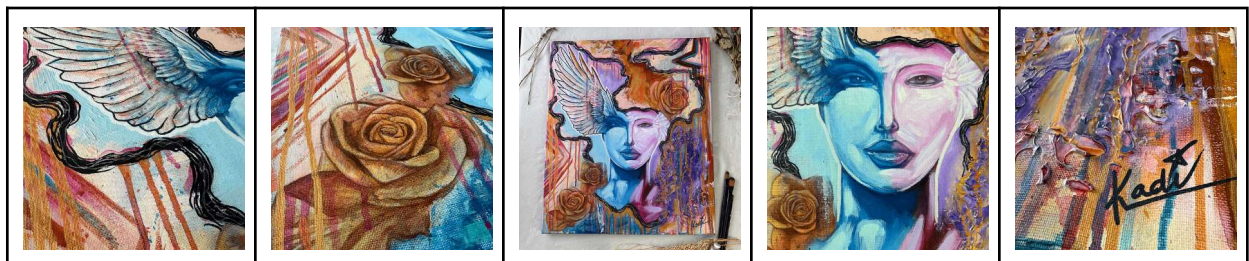

Each piece is an exploration of the connection between raw emotion and refined beauty, a space where art becomes a medium for release and inner discovery. My goal is to offer works that resonate deeply, inviting contemplation, serenity, and reflection on our place in the greater whole.

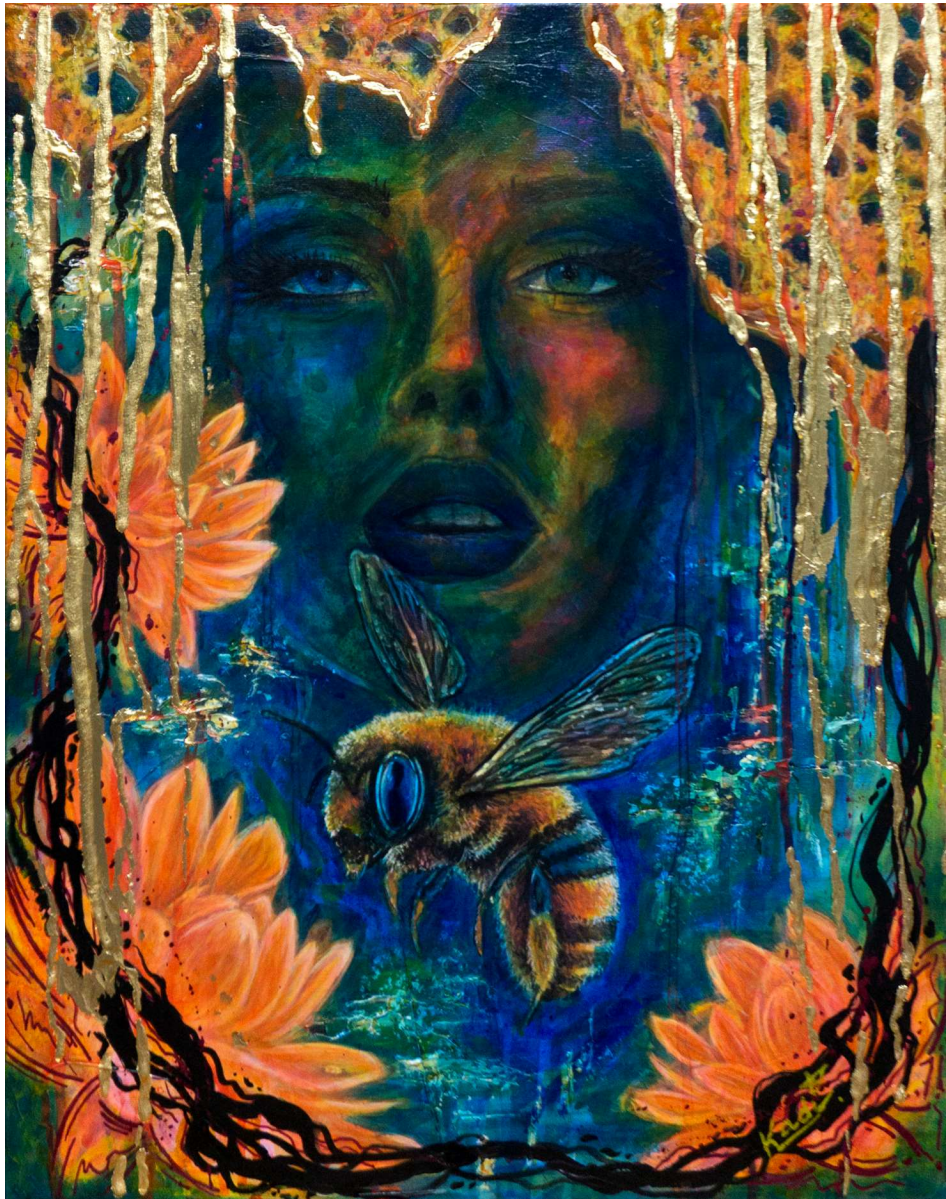

"Tahlia" - Mixed Media on Canvas - 20"x24" - 2023

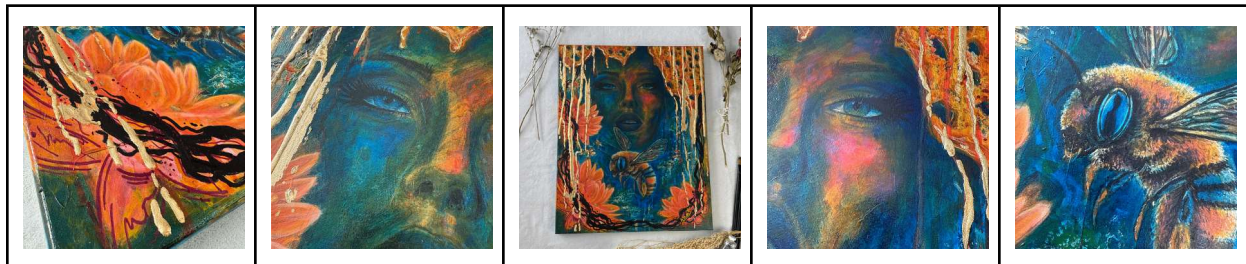

"Tahlia" explore the fluidity and duality of human identities, illustrated by a face split into two halves. The blending of blue and pink tones symbolizes the acceptance of the different facets of oneself. Textures created with mixed media techniques, such as acrylic, mortar, and lace paper transfer, evoke the complexity of authenticity. Drips and golden accents bring fluidity and light, emphasizing the theme of personal transformation. This piece celebrates the unique and ongoing journey of human evolution.

"Bumblebee & Dahlia" - Mixed Media on Canvas - 20"x24" - 2023

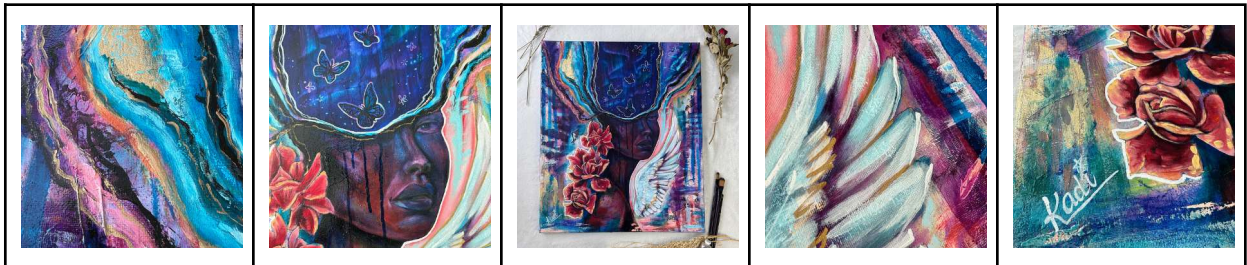

"Bumblebee & Dahlia" pays tribute to pollinators and their critical role in our ecosystem. The bumblebee in the foreground symbolizes vitality, enhanced by rich textures and iridescent touches that catch the light. Golden embossed honeycombs and flowing honey emphasize the precious relationship between bees and flowers. A woman with heterochromatic eyes adds a symbolic dimension, embodying the delicate harmony between humanity and nature.

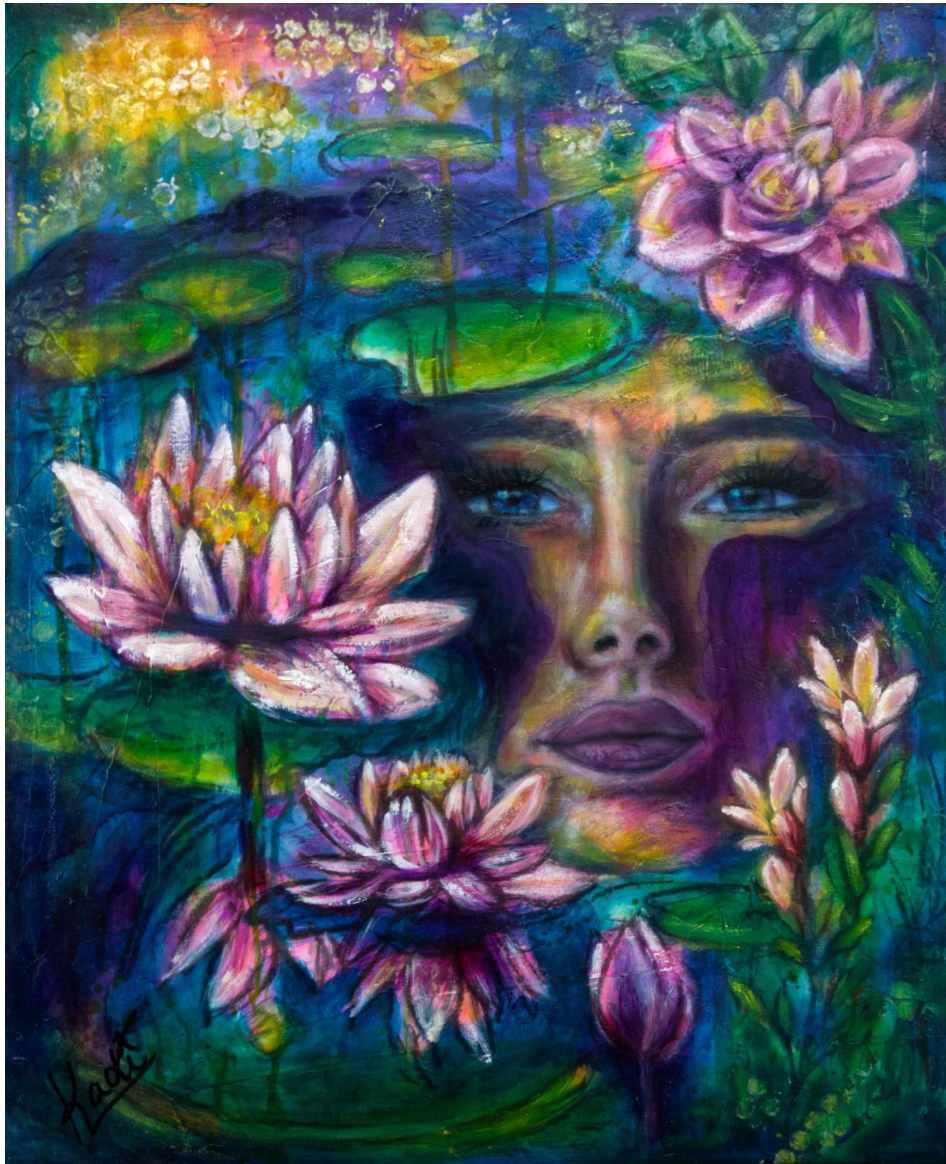

"Endless Blossom Dream" - Mixed Media on Canvas - 20"x24" - 2024

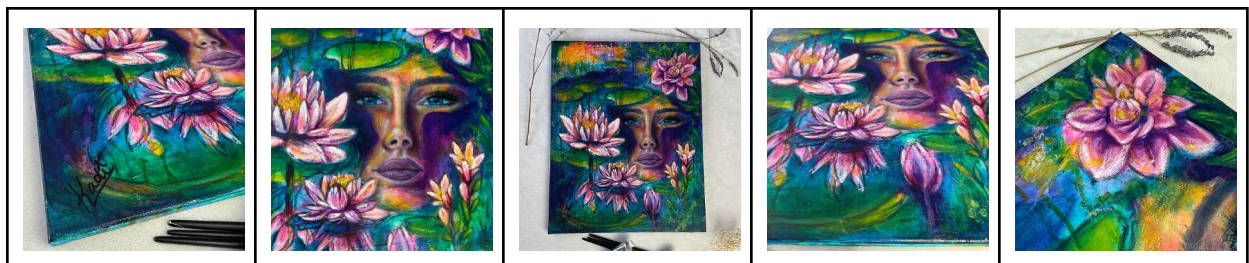

"Endless Blossom Dream" blends dream and reality through mixed media techniques, crafting a whimsical world. The face of a woman, depicted in bronze, mauve, and blue tones, embodies elevated thought and inner exploration. Her dreamy gaze unveils a universe filled with pop-art butterflies and flowers, symbolizing creativity and freedom. Rich textures and touches of gold metallic paper add magical depth, while the aurora borealis-inspired background amplifies the enchanting atmosphere. This piece celebrates the imagination, providing an endless space for reflection and escape.

"Lady Nenuphar - Rebirth" Mixed Media on canvas - 16"x20" - 2024

"Lady Nenuphar - Rebirth" captures feminine rebirth through the image of a woman's face emerging from water, surrounded by flowers and water lilies. It embodies the splendor of innocence and the strength of feminine transformation.

"Pomme Grenade Mademoiselle" - Mixed Media on canvas - 20"x24" - 2024

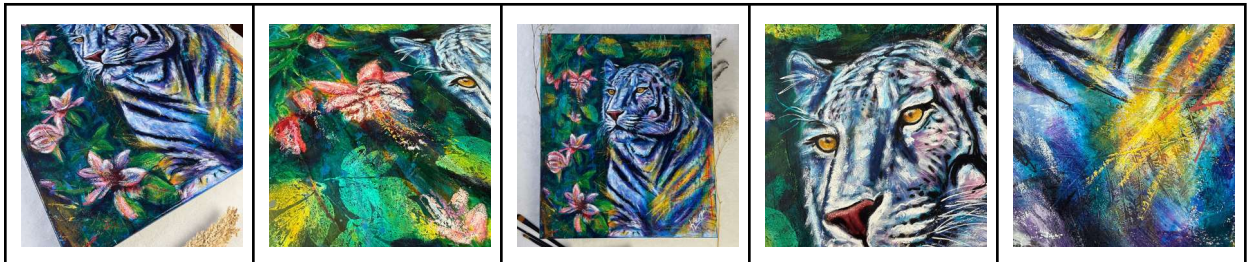

"Pomme Grenade Mademoiselle" merges nature and art through the majesty of a fox, painted in warm tones of orange and copper. Its wise gaze, framed by pomegranates symbolizing abundance, evokes a profound connection with nature. The background's soothing gradients of blue, green, and turquoise subtly contrast with the fox's warmth, creating a contemplative atmosphere. Mixed media techniques, including oil over acrylic and pastels, enhance the composition with vibrant colors and textures. This piece celebrates wisdom, prosperity, and harmony with nature, bringing mystery and inspiration to any space.

"I'm Strong for You" embodies power and resilience through the majestic image of a white tiger, symbolizing inner strength and determination. Its deep, protective gaze offers a sense of security, while the multicolored tones of its fur highlight its vitality. Surrounded by warm-toned tropical flowers, the tiger thrives in an energetic environment, representing the ability to overcome challenges for loved ones. Mixed media techniques, including oil over acrylic, pastels, markers, and leaf impressions, add depth and texture to the canvas. This piece is part of a duo with *"I Worth It"*, bringing an energy of support and resilience, perfect for inspiring and energizing any space.

Surrounded by tropical flowers and leaves in warm mango and vibrant pink tones, the tigress radiates a calm yet determined energy. These flowers, representing the inner strength of women, emphasize the raw beauty and determination of the animal. The smaller canvas size reflects how women's voices and value are often diminished, delivering a powerful message of self-affirmation. Created with mixed media techniques, this piece combines leaf impressions, mortar, pastels, and markers to offer a dynamic and textured composition.

"Barn Owl Glory" - Mixed Media on canvas - 16"x20" - 2024

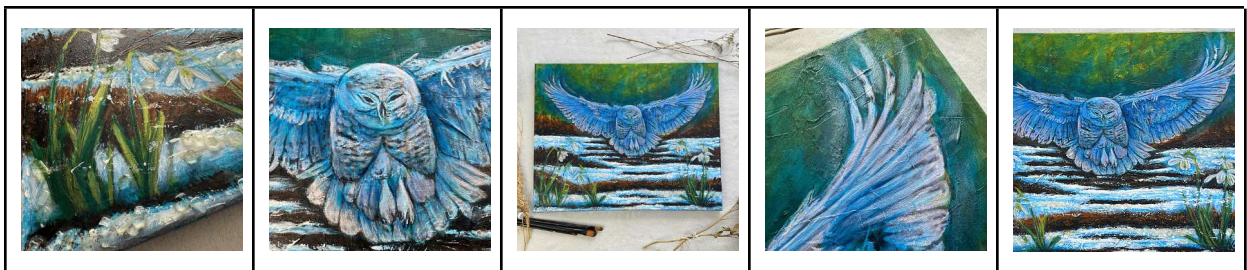

In *"Barn Owl Glory"*, the barn owl, a symbol of wisdom, is painted using a combination of mixed media techniques, including acrylic, oil, pastels, and markers. The organic textures are enhanced by the use of spray paint and paper transfer, creating a unique visual depth. The artwork captures the essence of autumn with shades of turquoise green, ochre, and luminous touches, incorporating natural elements like mushrooms and acorns. The abstract background, accentuated with golden elements, adds a mystical and poetic dimension to the scene.

"Harfang & Perce-Neige" - Mixed Media on canvas - 16"x20" - 2024

"Harfang & Perce-Neige" combines abstract and realistic elements through contrasting shades of blue, raw earth, and turquoise, creating a poetic winter atmosphere. The snowy owl, painted with iridescent wings in shades of mauve and blue, embodies freedom and a protective maternal bond. Delicate snowdrops, illuminated with golden and iridescent touches, emerge at the bottom of the canvas, symbolizing rebirth and hope at the heart of winter. The lush texture, created with resin and crushed glass, adds depth and movement, offering an immersive tactile experience. This artwork celebrates the beauty of nature in winter, conveying a message of resilience and freedom.

"*Complicité – Bonnie & Clyde*" immerses the viewer in 1930s America, capturing the intensity of the Great Depression and the complex relationship between Bonnie and Clyde. Painted in black and white with historical accuracy, the canvas recreates an iconic scene from their tumultuous daily life, accentuating the dramatic nature of their story. The abstract background adds depth and symbolizes the mystery of their relationship, highlighting the tension between reality and legend. The meticulous detail in the protagonists' faces conveys their complicity and the passion that bound them together. This artwork serves as both a tribute to their iconic figures and a reflection on the tragedy of their lives.

The subtle tones of green, blue, and yellow create a soothing and harmonious atmosphere, inviting contemplation. The water, symbolizing renewal, is rendered with fluid brushstrokes that evoke a sense of lightness and movement. The interplay of light and reflection on the water, with touches of brilliance, adds a realistic dimension to the piece.
